Overview

Client proctored test delivery offers the freedom to administer a certification test anywhere, anytime. With Client proctored delivery, your test can go "on-the-road" by managing the test details yourself using Pearson VUE delivery software.

Tests can be delivered wherever you are—at your corporate training center or a conference—with no special hardware needed. Client proctored testing supports a true bring your own device model in which test takers can test on their own computers. All administrative tools are web-based.

Before the event

Prior to any testing event, proctors must perform a series of tasks in preparation for the testing event.

- All proctors must set up their authorization questions and password in Navigator so they can unlock test registrations.
- Proctors can also view their exam authorizations in the Proctoring application.
- Proctors must run a Connection Check to ensure the tests can be delivered at the testing venue. This checks for both a speed test and connection test.

Check exam authorizations

Run connection check

Proctors check exam authorizations

Prior to proctoring a test, proctors must login to Navigator to set their security questions and password. The Navigator username and password are used to unlock exams at the testing event.

- 1. When users are set up as proctors, an email is sent to the proctor to activate their account. They must click on the link in the email within seven (7) days of receipt to activate their account. They must log in and set up their security questions and password.
- 2. Launch the **Pearson VUE Navigator** portal and **Log in** with the username and password. https://navigator.pearsonvue.com/Navigator/authenticate/login

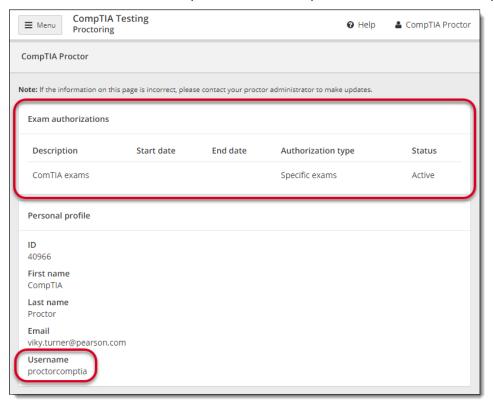

Check exam authorizations

Run connection check

3. Open the **Proctoring** application in the left navigation.

Proctors are authorized to proctor specific tests. The exam authorizations section lists all the exam authorizations assigned to the proctor. An exam authorization may be set up for a single test, or a group of tests. The proctor information page lists the exam authorizations, not the specific tests the proctor is authorized to proctor.

4. Click your **Username** in the upper right-hand corner and choose **Logout** from the drop-down menu.

Check exam authorizations

Run connection check

Run connection check

Note

Proctors must run connection check at the test venue prior to launching a test at the event to ensure the Internet connection is working properly.

- 1. Launch the **Pearson VUE Navigator** portal and **Log in**. https://navigator.pearsonvue.com/Navigator/authenticate/login
- 2. Open the **Connection Check** application.
- 3. Click Run test.

You **must pass both the speed test and the connection test** to successfully deliver tests.

- If the speed test and the connection test were both successful, a message states that the connection check ran successfully. It also identifies how many tests can be run concurrently at your location.
- If the connection fails, see the <u>Connection Check online help</u> for advice on troubleshooting a failed connection check.

During the event

The following tasks are performed during the testing event. Some tasks are performed by the proctor administrator, and some tasks are performed by the test taker.

- Test takers must download the Pearson VUE Browser Lock secure browser and either launch the test they pre-registered for, or they may register for the test at the event.
- The proctor unlocks the test so the test taker can complete the test.
- If the test has been stopped for any reason, there is a section describing how to resume the test. See the Resume test section for details.
- If technical difficulties are encountered, see the <u>Technical Troubleshooting</u> section for details.
- At the end of the test, test taker may view their score report on the client website.

3. Click Unlock Exam.

Note

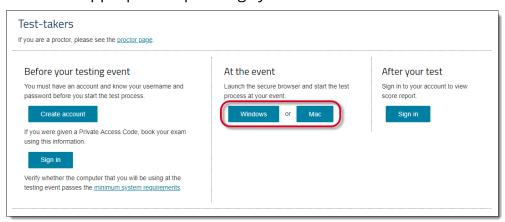

When proctors unlock a test, the test starts immediately. The test taker must be ready to begin the test. Verify with the test taker that they are ready to begin the test before you click Unlock Exam.

Resume test

If the test stops running for any reason (e.g., lose internet service, fire alarm, etc.), the test taker may resume the test when they return to the test delivery room.

- 1. Launch the client landing page https://pearsonvue.com/comptia/client-proctored.
- 2. Click I am a test taker link.
- 3. Click **Windows** or **Mac** to re-launch the test in a secure browser. Test takers must select the appropriate operating system.

4. Enter **Username** and **Password**, and click **Sign In**.

- 5. Click the test below **Online exam**.
- 6. Select **Resume exam**.
- 7. The Proctor unlocks the test registration.
- 8. Test taker resumes testing on the question following the last question they answered.

Technical troubleshooting

Before contacting support, check out this informative <u>Client proctored client support</u>

FAQ to find a solution to your problem. If you have locked your Navigator account by unsuccessfully trying to log in more than 5 times, contact our **Client Application Support** team for assistance at https://wsr.pearsonvue.com/appsupport/.
